Q2 & H1FY26 Business Highlights

Mr. Pulkit Seth
Vice-Chairman &
Non-Executive Director

Commenting on the Results, Mr. Pulkit Seth, Vice-Chairman & Non-Executive Director, said:

"We are delighted to report another quarter of encouraging performance in Q2FY26 despite uncertain and volatile geo-political and macro environment. Consolidated revenue for H1FY26 crossed Rs. 2,500 crore milestone, reaching Rs. 2,541 crore, a growth of 12.7% Y-o-Y. This marks a significant achievement underscoring the strength of our diversified, multi-country manufacturing model. Reflecting our continued commitment to shareholder value, the board has declared an interim dividend of Rs. 6.00 per equity share, representing 20% payout ratio (wrt. Group PAT) and 120% of face value of share.

Our growth this quarter was led by sustained momentum in Vietnam and Indonesia, which delivered double-digit volume expansion and maintained strong operational performance. These hubs continue to validate our strategic foresight in building multi-hub production capabilities that balance scale with agility.

We are closely tracking developments in the US tariff landscape. We expect normalization in the coming quarters, we remain confident in our ability to adapt swiftly to changing requirement. Our diversified global footprint empowers us to recalibrate and readjust production and continue meeting demand across high-growth markets. With our diversified customer base across the US, UK, Japan, and Australia, and the ongoing talk of new FTAs, we remain well positioned to capture increased demand.

As we close the first half of FY26 on a strong footing, our focus remains on sustainable, profitable growth, anchored in agility, technology, and long-term stakeholder value creation."

Mr. Pallab Banerjee
Managing Director

Commenting on the Results, Mr. Pallab Banerjee, Managing Director said:

"We are pleased to share another quarter of strong financial performance, reflecting the resilience of our operations amid an evolving trade environment. In Q2FY26, Pearl Global achieved revenue of Rs. 1,313 crore and improved profitability, demonstrating our ability to navigate trade complexities, including 50% US tariff on India. Adjusted EBITDA (excluding ESOP costs) of Rs. 122 crore, with margins at 9.3%, improve by 108 BPS Y-o-Y. Excluding tariff cost/loss at new facilities (Guatemala & Bihar) stands at 10.1%, driven by improved product mix and higher realization from Vietnam and Indonesia.

USA contributes ~50% in our group revenue down from 86% in FY21. This was driven by strategy to reduce dependency on a single market. We have made notable progress in expanding our footprint across Australia, Japan, the UK and the EU and continue to scout for marquee client's relationship in these geographies. Within India, we have accelerated onboarding of quality domestic customers to bolster near-term stability.

We continue to invest in India & Bangladesh and execute our capex plan of Rs. 250 crore for capacity expansion, sustainability, and efficiency improvement. Expansion of 5-6 million pieces in Bangladesh, 2.5-3.5 million pieces in India and digitization of our supply chain are enhancing transparency, agility, and scalability across operations. Driven by prudent capex and a strong global network, Pearl Global is well-positioned for sustainable growth. Diversified market base, robust order book coupled with disciplined execution, reinforce our ability to deliver long-term value and maintain momentum."
